LONGLASTING BEAUTY AND STYLE

Landmark Straight Rail in White with Flat Cap and Square Pickets.

Landmark T-Rail in White with Flat Cap and Square Pickets.

Landmark Straight Rail in White with New England Classic Cap (special order) and Square Pickets.

Give your home the classic beauty of a freshly painted wood railing without the frequent, time-consuming sanding and painting that wood requires. Sturdy and stylish Landmark Railing is a worry-free solution that won't rot, peel or become discolored.

HOW TO ORDER

It's easy to design and order the look you want for your home's porch or deck. Whether you want a sleek look or a more traditional profile, just follow these simple steps.

1 SELECT YOUR RAILING STYLE

Choose a simple, clean look or a more substantial profile with a broad hand rail. Both are reinforced with non-corrosive aluminum at the top of the rail for dependable stability and strength.

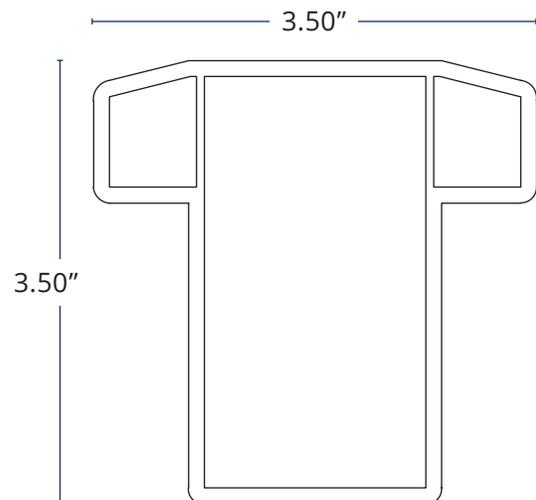

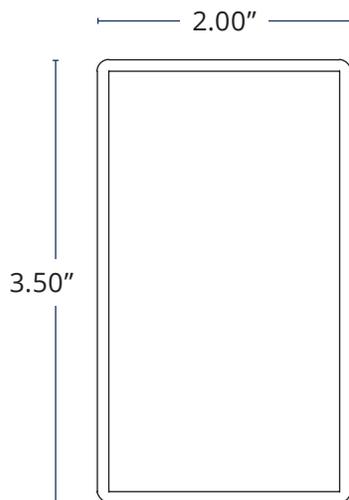

STRAIGHT RAIL

The vertical straight rail is simple and sturdy with clean, modern lines.

T-RAIL

Our T-Rail provides a wider, traditional profile with comfortable beveled edges.

3

SELECT YOUR CAP STYLE

Cap your railing posts with choices for a simple, minimalist look, a New England coastal style or a dramatic nighttime flair.

- A. Flat Cap
- B. New England Cap
- C. Solar Lighted Cap

2

SELECT YOUR PICKET

Choose the classic look of early-American homes with our Decorative Picket and its turned-spindle look, or the clean, smooth lines of our Square Picket.

PICKETS STYLES

Both pickets start with a 1½" square; the Decorative Picket offers a profile that resembles classic, lathe-turned spindles.

- A. Decorative Picket
- B. Square Picket
